extreme Programming in Action: Practical Experiences from Real World Projects

By Martin Lippert, Stefan Rook, Henning Wolf

John Wiley and Sons Ltd. Paperback. Book Condition: new. BRAND NEW, eXtreme Programming in Action: Practical Experiences from Real World Projects, Martin Lippert, Stefan Rook, Henning Wolf, Real-life experience of eXtreme Programming from XP programmers. eXtreme Programming (XP) is a hot new development methodology for building software systems quickly without sacrificing quality. Authors Lippert, Wolf and Rook have three years experience of working on professional XP projects. The projects range from application via prototype to framework development and cover project sizes from one person month to more than 400 person months. Until now XP has been described in outline by those promoting its advantages, this book provides objective examples of how it can be used in practice. An objective assessment of XP, grounded in real world experience, and not written by those championing this method. Invaluable combination of theory and practice. Covers advanced topics such as project organization, team roles and integrating legacy systems.

Reviews

Absolutely among the finest book We have at any time read through. We have read through and that i am sure that i will going to read once more again later on. I found out this book from my i and dad suggested this book to find out.

-- **Alford McClure**

I actually started reading this article ebook. It is actually packed with knowledge and wisdom Its been printed in a remarkably simple way and it is only after i finished reading this pdf where in fact modified me, alter the way i believe.
