REVOLUTIONS THAT MADE THE EARTH

Oxford University Press, United Kingdom, 2013. Paperback. Book Condition: New. Reissue. 232 x 160 mm. Language: English . Brand New Book. The Earth that sustains us today was born out of a few remarkable, near-catastrophic revolutions, started by biological innovations and marked by global environmental consequences. The revolutions have certain features in common, such as an increase in the complexity, energy utilization, and information processing capabilities of life. This book describes these revolutions, showing the fundamental interdependence of the evolution...
