## Chemistry^3: Introducing Inorganic, Organic and Physical Chemistry

By Andrew Burrows, John Holman, Andrew Parsons

Oxford University Press, United Kingdom, 2013. Paperback. Book Condition: New. 2nd Revised edition. 274 x 211 mm. Language: English . Brand New Book. Chemistry is widely considered to be the central science: it encompasses concepts on which all other branches of science are developed. Yet, for many students entering university, gaining a firm grounding in chemistry is a real challenge. Chemistry^3 responds to this challenge, providing students with a full understanding of the fundamental principles of chemistry on which to build later studies. Uniquely amongst the introductory chemistry texts currently available, Chemistry^3 is written by a team of chemists to give equal coverage of organic, inorganic and physical chemistry - coverage that is uniformly authoritative. The approach to organic chemistry is mechanistic, rather than the old-fashioned functional group approach, to help students achieve a fuller understanding of the underlying principles. The expertise of the author team is completed by two specialists in chemistry education, who bring to the book a wealth of experience of teaching chemistry in a way that students enjoy and understand. The result is a text that builds on what students know already from school and tackles their misunderstandings and misconceptions, thereby providing a seamless transition from...
