Petrides's classic "Field Guide to Trees and Shrubs", this is probably the most beautifully illustrated & cleverly organized guide to trees ever published. An authoritative guide that includes every tree that grows wild in eastern North America, including the tropical trees of south Florida & the Florida keys. Using the unique system of identification employed in the author's other tree books, the 455 trees of the region are divided into 6 major groups according to conspicuous characteristics: all the native trees in an area north to the Arctic ocean, south to the Gulf Coast & Florida, & west to the Great Plains, plus non-native trees that have escaped cultivation. Trees that look alike are brought together & compared in text & illustration, regardless of whether they are related or not. The color plates, beautifully painted by Janet Wehr, emphasize details that may not be present or clearly visible in a photograph. Differences between trees that resemble each other are also pointed out in distinctive comparison charts. This superb guide provides detailed descriptions of each species: shape & arrangement of leaves, height, color, bark texture, flowering...
